After taking time to review this further I am very confused and concerned. It is state law to report teacher misconduct with students to TEA and Texas Education Commissioner. Fines and jail time can be handed down. How does this NOT fall in-line for TEA?

I have got my open records request decision from the Attorney General on the individual that was working at the school and had allegations against him. I am now waiting on the actual open records from Tulia PD. This substitute teacher was also a police officer and as you read was DISHONORABLY DISCHARGED because of the situation at the school. There is so much more to this situation and I hope you will continue to look into this. I will share more when I get the records I requested. Feel free to contact me if you have any questions.

I am so sorry to bother you sir but it's critical to me that kids are protected. Is it criminal to give children Electronic Vape Pens to students on School grounds? According to TEC, §21.006. Mr. Taylor,

As previously discussed, the individual is not-certified and not charged with a criminal offense. The individual was a substitute that did not result in a resignation or termination, he was removed from the substitute list. While the communication between the student and educator is inappropriate it does not rise to the level that a romantic relationship was established or solicited with the student. The purchasing of vaping products alone would be an issue that would be handled at the local level and not rise to the level needed for SBEC because the individual is not certified. The incident and your concerns have been documented and would be used if there were future incidents. There is no appeal of the decision to open a case on the Superintendent. If local law enforcement decides to reopen their investigation and file charges, then complaint can be reevaluated.

REQUIREMENT TO REPORT MISCONDUCT and Sec 261.001 of Family Code it should be extremely clear that this kind of conduct should have been reported. Requesting nude pictures from a high school student is mentally abusive. I have attached part of the Open Records request that the Attorney General helped me acquire. If you also read the report on page 10 it states "Purchasing a vape for a minor is a criminal offense". The vape is understood to be given to the student on campus. What are my options to have this issue sent up for review or decision appealed?

After taking time to review this further I am very confused and concerned. It is state law to report teacher misconduct with students to TEA and Texas Education Commissioner. Fines and jail time can be handed down. How does this NOT fall in-line for TEA?
